

The Floral Table captures design and ergonomic function unlike any other table product.

The creation of the soft inward cut out at each corner provides a curvature that allows the body of the caregiver to sit in a more ergonomically friendly position reducing awkward posture and reach strain. Thus, preventing the ever increasing injuries experienced by the caregiver while performing routine tasks during mealtimes or activities.

NEW | PRODUCT

GCF-42L 42" x 42" Floral Dining Table with Thermally Fused laminate top, PVC edge, four legs

GCF-42H As above except with High Pressure Laminate top

GCF-48L 48" x 48" Floral Dining Table with Thermally Fused Laminate top, PVC edge, four legs
