FEATURES

- The interior wood frame is an 'Interlocking Construction' providing superior strength and long term durability
- The seat is fastened into place and removable over an open frame structure eliminating all barriers and traps below the surface
- The seat cushion is fully encased by the upholstery with a nylon zippered opening for access if replacement is required. When using Crypton or Vinyl textiles, this method of upholstery may prevent the interior construction from contact with spills and body fluids that could affect the product's long term performance
- Seat structure is high density ultracell foam over an elasticized seat suspension with waterfall front edge for extra comfort
- Seamless front upholstery method on the seat cushion may prevent eventual breakdown of seams causing liquid penetration into the foam
