## modular linked

FOR WAITING ROOMS AND COMMON AREAS

*A modular seating system designed with people in mind.*

Interlock performs 24/7, offering loved ones a place to rest in the fundamental comfort they deserve. Interlock's versatile, fresh combination of style, comfort and durability is unmatched in strength and modularity. Designed specifically for demanding, ever changing spaces Interlock can be configured to fit the needs within a space and modified or reconfigured should the space change.

One of the most valuable features is Interlock's frame which can be specified in wood for a home-like warm feeling or aluminum with several stylish finish combinations to enrich any space. Both frames offer metal to metal connections for superior performance and the option of wood or self skinned urethane arm rests for properly meeting the demands of the space.

### *Stand Alone Bench Options*

FOR LOUNGE AND COMMON AREAS

*Create a warm, elegant feeling with Interlock wood.*

The product grouping includes high and low back standard and bariatric seating and bench models. The standard models are warranted for a 500 lb active weight capacity and the Bariatric models are warranted for a 750 lb active weight capacity. Rounding out the product offering are complementary tables and table tops in attractive shapes and sizes. Tables are available as freestanding units and

table tops are available for linking seating units. Specially designed minimum rearward seat pitch makes entry and exit from the chair more comfortable while reducing stress on the lower back. The seat cushion is constructed from high density UltraCell foam. Seat and back cushions are fully wrapped in textile with a nylon zippered closure to allow for easy cleaning or replacement.
