

◀ **GC3610C**
Single Sleeper

The **Primacare Sleeper** is an attractive comfortable chair by day and sleeping surface by night. The Primacare Sleeper is ideal for resident rooms or lounge areas where staying over night may be required but space is limited.

It is easily opened and closed by one person. Below the seat a ventilated steel storage compartment conveniently stores linens and pillows. The surface cushions have been styled from high density ultra cell bio foam with built in head support in the sleeping position. The Primacare Sleeper is available with high quality commercial grade manual locking casters or with attractive tapered wood legs.

NEW | PRODUCT

FEATURES:

- Arm surface finish options include a wide range of wood or durable, easy to clean, anti-bacterial self skinned urethane.
- Armrests are field replaceable if required and are securely fastened with metal to metal connectors.
- Seat and back cushions are constructed from thick dual density ultra cell bio foam for enhanced long term comfort.
- The upholstery covers offer a seamless front to prevent potential breakdown of seams which could allow liquid penetration into foam.
- Two easy to reach handles are provided on the back (left and right side) to pull up and assist in the movement of the platform from sleeping to a seated position.
- Primacare is warranted to 350 lb active weight capacity.
- Primacare is a **GREENGUARD CERTIFIED** product so it is safe to use and contributes to healthy indoor air quality.

SUGGESTED APPLICATIONS:

- Residents Rooms
- Lounge Areas
