OCCASIONAL TABLES

Note **PLEASE SPECIFY all substitutions and options**

Being able to find the perfect combination to fit any design preference is made easy with the vast selection of occasional / dining tables offered. Occasional dining tables are available in several shapes, sizes and heights of dining tables, end tables, coffee tables and sofa tables.

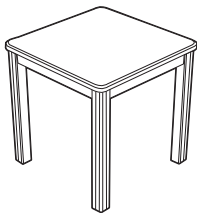

- A selection of Thermally Fused Laminates (L), High Pressure (H) and Wood (W) tops compliment the line.
- Thermally Fused and High Pressure laminate tops have a coordinating 3mm PVC edge.
- Wood tops offer solid wood edging designed to compliment the leg selection.
- All tables are standard with solid wood legs and 2" aprons. On dining tables, the center portion of the apron has a reduced height to allow enough clearance for seating.
- Dining tables have adjustable glides providing leveling capability on uneven floors.
- Choose from Chippendale (C), Post (P), Queen Anne (Q) and Tapered (T) style legs, in addition to the York series leg style.
- For custom sizes and shapes, contact your Global sales representative.
- Ship R.T.A. (Ready To Assemble)

TABLET DINING ROOM TABLES

Note PLEASE SPECIFY all substitutions and options

- The unique tablet attachment was created in partnership with leading Healthcare Professionals, as a solution for persons using wheelchairs and the desire to be able to accommodate these people wherever they choose to sit.
- The tablet provides a surface over the lap of the wheelchair user so they can enjoy meals or recreational activities along with everyone else. For persons with leg extensions, the tablet is the perfect solution. It provides them with an overlap surface while preventing their leg extension from interfering with anyone else at the table.
- Tablet tables are a durable, high impact resistant solution that can be used for dining and/or activity areas. The tops are offered in a variety of beautiful Thermally Fused and High-Pressure Laminates with a coordinating 3mm PVC edge detail. For contrasting PVC edge, please contact Global sales representative.
- The metal tapered leg is available in several attractive baked epoxy paint finishes.
- All leg attachments utilize screws being inserted into pre-drilled metal inserts ensuring the strength and integrity of the product.
- The tablet has a metal bracket that hugs onto the side of the table and is further secured to the surface underside with thumbscrews into metal inserts for maximum safety. The table surfaces come pre-drilled to accept the tablets on all sides.
- Heavy duty tapered steel leg finish and Fixed wheelchair tablet metal components are standard in Black (BLK). Legs are also available in: Platinum (PLT), Toast (TOA), Tungsten (TUN) and Storm Grey (SOG). These finishes must be specified on order or standard finish will apply.
- Glides have an adjustable 1.5" range.
- Glides are black on all leg finishes EXCEPT Tungsten which has Tungsten glides.
- Tablet tables are pre-drilled with metal inserts designed to accept the tablet on all sides for wheelchair access on demand.
- PVC edge is standard for all tops. Coordinating edge colour is standard. For optional Black colour edge, please specify (PB) no upcharge.
- The following laminate finishes are available with coordinating PVC edge:
Thermally Fused Laminate (L) Please refer to Tablets, Floral and Enable Table Finishes pages for color options
High Pressure Laminate (H) Please refer to Tablets, Floral and Enable Table Finishes pages for color options
- Optional leg on caster available if required: LLL291, LLL294, LCL291, LCL294. Caster for retrofitting to leg - LRC1.
- **Shipped R.T.A. (Ready To Assemble).**

FLORAL DINING ROOM TABLES

Note PLEASE SPECIFY all substitutions and options

- The Floral Table captures design and ergonomic function unlike any other table product.
- The purpose of the Floral Table came from extensive work, with a leading facility dealing with limited mobility and greater dependence by residents and patients on caregivers requiring assistance during activities and mealtimes. The creation of the soft inward cut out at each corner provides a curvature that allows the body of the caregiver to sit in a more ergonomically friendly position reducing awkward posture and reach strain. Thus, preventing the ever increasing injuries experienced by the caregiver while performing routine tasks during mealtimes or activities.
- Beyond the attractive appearance of the Floral design and ergonomic value described above, caregivers love this product as it defines the surface area for each user when infringement on another's space can cause agitation or concern.
- The Floral table is a durable, high impact resistant solution that can be used for dining and activity areas. The tops are offered in a variety of beautiful Thermally Fused and High Pressure Laminates with a 3mm PVC edge detail.
- The metal tapered leg is available in several attractive baked epoxy paint finishes. All leg attachments utilize screws being inserted into pre-drilled metal inserts ensuring the strength and integrity of the product.
- Attractive top design offers an inward curve at each corner allowing comfortable access if assistance with eating is required.
- Heavy duty tapered steel legs finish standard is Black (BLK). Also available in Platinum (PLT), Toast (TOA), Tungsten (TUN) and Storm Grey (SOG). These finishes must be specified on order or standard finish will apply.
- Glides are black on all leg finishes EXCEPT Tungsten which has Tungsten glides.
- Glides have an adjustable 1.5" range.
- PVC edge is standard for all tops. Standard in coordinating colour.
For Black PVC edge, please specify **(PB)** **no upcharge.**
- The following laminate finishes are available with coordinating PVC edge:
Thermally Fused Laminate (L) Please refer to Tablets, Floral and Enable Table Finishes pages for color options.
High Pressure Laminate (H) Please refer to Tablets, Floral and Enable Table Finishes pages for color options.
- Optional leg on caster available if required: LLL291, LLL294, LCL291, LCL294. Caster for retrofitting to leg - LRC1.
- **Shipped R.T.A. (Ready To Assemble).**
