

**GLOBAL CARE ANNOUNCES LAUNCH OF A NEW 'PATIENT ROOM FURNITURE SYSTEM'
FREESTANDING VERSION**

MARKET APPLICATION

Long Term (Nursing homes) and Acute Care (Hospitals) Health Care Facilities.

DESIGN & INNOVATION

Global introduces the Freestanding Version of the new Global Care Patient Room Furniture System for application in long term care facilities (nursing homes) and acute care facilities (hospitals). An extensive product offering includes wardrobe cabinets, dressers, TV cabinets, and bedside tables in a variety of configurations and sizes. Matching headboards and footboards are also available to enable the patient bed to be coordinated. The Freestanding Version has easy access for cleaning underneath inhibiting dirt and bacteria from accumulating. The aluminum extrusion framework provides exceptional support and rigidity to ensure product integrity and supports a healthcare compliant environment. Ventilation and drainage holes have been integrated into the design detailing and double as a location for optional hooks and storage accessories that expand the utility of the furniture for the user. Designers, specifiers and care givers can choose from a broad selection of finishes, handles, facial profiles and door/drawer configurations that best suit the functional requirements and culture of their facility and the patient care practices.
